HENDERSON DIRECTORIES, LIMITED

279 GARRY STREET, WINNIPEG, MANITOBA

Entered according to Act of Parliament of Canada, in the year One Thousand Nine Hundred and Ten by Henderson Directories, Limited, in the Office of the Minister of Agriculture.

Preface.

We have pleasure in presenting this the sixth volume of Henderson's Edmonton and Strathcona Twin City Directory. The recent canvass of the city, necessary to the publication of this work, clearly indicates that the rapid growth and development which we have had to report in previous issues is of a permanent character and we have endeavored to faithfully chronicle this progress, for it is generally recognized that there is no better means of spreading information concerning a city, or of making known its commercial and social possibilities than through the medium of a thorough, up-to-date City Directory. Such a work we have endeavored to make this present issue.

From the classified business section of the work it will be noticed that many new business firms have located here during the year.

We have again to extend our thanks to our patrons for so marked an increase in the advertising department and for this expression of their growing faith in the necessity and usefulness of this publication, which has become an indispensable adjunct to a modern city's business machinery.

Yours Respectfully,

HENDERSON DIRECTORIES, LIMITED.

Edmonton is beautifully situated on the high land on the north bank of the Saskatchewan River 825 miles west of Winnipeg on the C. N. Ry. Loose Leaf Systems

The Douglas "Monarch" Ledger

A Survey of the field of invention of the last twenty years reveals not one advancement that so completely affects the business world in general as does the Loose Leaf System for recording business transactions.

The old form of bookkeeping with bound books is now practically obsolete. Business and professional men everywhere have been quick to grasp the many advantages offered by the new system. The elimination of dead accounts and the vast amount of time to be saved in the performance of work are features that cannot be overlooked when it is desirable to systematize routine affairs.

SITUATION

Strathcona is the gateway to the Great North Country of agricultural and mineral wealth and is the distributing point of that country.

To the south and east there is an agricultural country which produces splendid crops of wheat, oats and barley, the average yield for Central Alberta being, wheat 25 bushels, oats 60 bushels and barley 40 bushels per acre. Yields of 800 bushels of potatoes per acre are not uncommon.

All kinds of vegetables do well, their quality being marked by the fact that the Strathcona exhibit took first prize at the Dominion Fair held in New Westminster in 1907.

INDUSTRIES

The chief industries in the district are coal mining, of which there are no less than 15 mines in active operation, with an export output of 55,000 tons per month and with unlimited supplies in sight.

Amongst other important industries in Strathcona are two large saw mills with a yearly cut of 20,000,000 feet of lumber and employing 200 men.

Also three packing plants, four brick yards, an iron foundry, one brewery, one oat meal mill (capacity of 200 barrels per day) one flour mill (150 barrels per day) four elevators, capacity 400,000 bushels.

RAILWAYS

The new line from Sedgwick (or Killam) joining the C. & E. branch at Ellerslie will give a direct line to Winnipeg via Saskatoon.

The Canadian Northern have access to the City and are connecting the City with their main line at Vegreville. They are also building from Strathcona to Camrose.

FIRE PROTECTION

The City has a very up-to-date fire fighting apparatus and have an almost unlimited supply of water from the City. The brigade consists of 20 volunteer firemen.
